

Wildflowers – supply list

In this class you will create a small sampler of flowers as you learn the various cutting techniques we will use. You will work on a background fabric, which can be white, ecru, etc. & softly patterned or mottled—whatever appeals to you.

- Approx 12" x 20" piece of background fabric for base.
- Solid & print fabric scraps—A variety of flower colors / some shades, some large splashy prints, mottled colors are good; you want some variety. Green & green prints for leaves and stems. Browns and grays for mushrooms. Blues or reds for birds.
- A good sharp pair of fabric scissors.
- Sewing notions: needles, favorite applique threads, thimble, pins, etc.
- Pictures or a book of wildflowers you especially are interested in making.
